Scrivanie Class - Class Desks

Le scrivanie sono composte da un piano di lavoro tamburato impiallacciato in legno con spessore 57 mm, rifinito con bordo legno di spessore e raggio 2,5mm con fresatura disposta in tutti i lati; i lati della scrivania presentano un taglio a 45°.

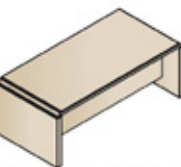

Le gambe sono in agglomerato ligneo tamburato impiallacciato in legno con spessore 70 mm; tra il piano di lavoro e le gambe è posta una giunzione in legno massello.

La scrivania può essere integrata con un allungo in agglomerato ligneo impiallacciato con spessore di 40 mm; inoltre, può essere abbinato con 2 cassetti in multistrato legno completi di guida quadro con rallentamento di chiusura. La scrivania può essere integrata a un service impiallacciato in legno e rifinito con bordatura lignea, completo di cassetti con interno in multistrato legno e guide quadro con rallentamento di chiusura; può essere arricchito con ante in legno oppure a giorno. Le maniglie, di due diverse tipologie, si presentano in legno massello, oppure in Zama con diverse finiture.

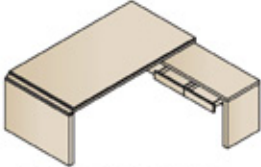

The desks are composed of a 57 mm veneered honeycomb worktop, finished with a wooden edge radius 2.5mm. Milling along all sides; the desk' sides have a 45° cut.

A solid wood joint is placed between the worktop and the 70mm thick wooden veneered legs.

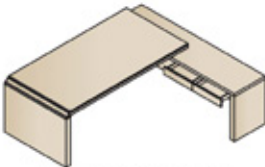

The desk can be completed with an extension 40mm thick veneered with wood also available with 2 wooden drawers. The desk can be completed with a wooden service finished with wooden edge, and drawers with wooden plywood interior and framework guides with closing slowdown; it can be equipped with wooden or open doors. The handles, of two different types, are made of solid wood, or in zamak, with different finishes.

Tavoli riunione Class - Class Meeting Tables

I tavoli riunione presentano un piano di lavoro tamburato impiallacciato in legno con spessore 57 mm, rifinito con bordo ligneo di spessore e raggio 2,5mm, completo di fresatura esterna. Le gambe sono in agglomerato ligneo tamburato impiallacciato in legno con spessore 70 mm e rifinite con bordo legno di spessore e raggio 2,5mm; il piano è integrato con la parte centrale, rivestita in pelle ecologica/vera pelle. I tavoli riunione sono predisposti per canalizzazione ed elettrificazione. Le gambe sono unite tra loro da doppia gonna in melaminico antracite con chiusura posteriore concepita con un pannello ispezionabile per il contenimento dei cavi, ciabatte o parti elettriche. Nella parte esterna delle gambe è presente un supporto per piano laterale con predisposizione al passaggio dei cavi, completo di pannello in lamiera verniciata/cromata.

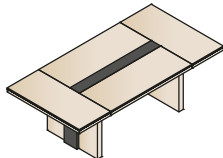

The meeting tables have a 57 mm thick veneered worktop, finished with a wooden edge and external milling. The 70mm wooden legs are finished with a wooden edge; the top is combined with the central part, and covered in ecological leather / real leather. The meeting tables are set for canalization and electrification. The legs are combined together by a double modesty panel in anthracite melamine with back closure composed by a panel for containing cables, sockets or electrical parts. On the legs there is a support set for the passage of cables, complete with a panel in painted / chromed sheet.
