IT	EN
Il codice a tre cifre individua il colore della stoffa applicata nell'articolo / componente. Ogni partita di tessuto può presentare variazioni di tonalità rispetto sia al campionario sia ad elementi prodotti in tempi diversi.	The three-digit code identifies the colour of the fabric for each item / component. Each fabric batch can show colour differences compared to the fabric samples and to the products manufactured at different times.
Leggere differenze di colore tra un lotto di produzione e l'altro, devono essere considerate nella norma. I colori stampati sono indicativi e potrebbero essere sostituiti o modificati nel tempo a discrezione di LAS.	Slight colour differences from lot to lot must be considered within commercial tolerances. Please consider that the colours in these pages are printed, so they can't be considered as real. They can be changed or modified in the life time by LAS.

The integrated top-access (where provided) is made up of an ABS frame printed in the same colour as the desk top, the cover is made of an 8 mm thick wood particle board panel of the same colour as the top.

The metal structure of the desks consists of a perimeter frame (and in some lengths also of stiffening crosspieces) and vertical legs.

The frame and the crosspieces are in painted extruded aluminium section.

The legs are made of 40 mm diameter metal tube with a thickness of 3 mm, equipped in the lower part with a levelling foot in grey nylon.

The table ART.794, instead of the feet, is equipped with grey rubber wheels, 75 mm diameter with brake.

The metal structure is available in: MOSS GREEN, GREEN, BLACK (MATT), WHITE, STONE GREY.

The table ART.797 L.240 cm also includes a 61 mm thick central side in wood particle, melamine faced with removable sheet metal infills 1,2 mm thick, and two holes, for inspection and cable management. The infills are painted with epoxy powders in the same colour as the metal structure.

The cable trays (where provided) are made of 1 mm thick bent metal sheet painted with epoxy powders in the colours: MOSS GREEN, GREEN, BLACK (MATT), WHITE, STONE GREY.

They allow the housing of electrification kits and the collection of excess cables.

The assembly takes place through metal supports with a diameter of 30 mm, fixed under the central bar of the bench.

The team table ART.799 has the possibility of using front screens.

KIT 4 RINGS FOR CABLES CLIMBING

Made of ABS with internal diameter 40 mm, external 60 mm. Available in colours: grey, black and white.

They hook onto the legs and allow the cables to climb up to the trays.

KIT OF CABLE CLIMBING

Made of 0,7 mm thick bent metal sheet painted with epoxy powders in the colours: MOSS GREEN, GREEN, BLACK (MATT), WHITE, STONE GREY.

Equipped with 3 magnets suitable for fixing on the legs of desks or tables.
